

RUTH TAFEBE

Comet Records is back on the afrobeat stage, with the release of a new album *Holy Warriors*, by Ruth Tafebe and the Afrorockerz.

Ruth Tafebe's got the sould in her deep voice, which also carriers her African Roots, and could be described as a kind of conjunction between Aretha Franklin, Miriam Makeba and Nina Simone.

The encounter between her, the Afrorockerz and the afrobeat master drummer Tony Allen is simply magic, they connected us to the afrobeat spirit in an almost cosmic way.
